THE SHOW

“My name is Bond...” you know the rest. What you didn’t know is that they come in threes AND they sing! Welcome to the slickest, coolest and - dare we say it – most debonair show since *The Rat Pack’s Back*. The boys have done it again, this time bringing the world’s favourite leading man to the stage.

Tongues firmly planted in their cheeks, James, James and James smoothly and hilariously get amongst the audience whilst belting out an array of magnificent tunes, as memorable as they are unique. *Diamonds are Forever, Thunderball, Goldfinger, Live and Let Die*, the list goes on...

We’ve shaken in lashings of charm, stirred in some slick moves and more oneliners than Bond could poke his stick at! On top of it all, audience-members discover just who the REAL Bond is...
